Figure B517R8 Standard Port

Class 125 Flanged Eccentric Plug Valves For In-Plant/Exposed Service

Data Sheet B517R8.01D

Description

The GA Industries Figure B517R8 Eccentric Plug Valve is a rugged, field-proven valve that will provide many decades of trouble-free service. The standard port valve has a minimum port area of 80% of the inside area of the adjacent pipe for low head loss.

The Figure B517R8 Eccentric Plug Valve epoxy coated ductile iron body has upper and lower thrust bearings, grit seals and all surfaces of the ductile iron plug exposed to the flow are totally encapsulated in rubber.

The valve can be supplied with a manual worm gear with visual position indicator and handwheel or an optional chainwheel or 2" square nut. Automatic actuation is also available.

Standard Features

- Internal and external epoxy coated, high strength ductile iron body and cover
- · Minimum 80% port area for low headloss
- · Bi-directional zero leakage
- · Fully rubber encapsulated ductile iron plug
- Shaft packing adjustable and replaceable without removing the actuator
- · 316SS external fasteners
- · 316SS upper and lower shaft bearings
- · Lifting eyes and feet to facilitate handling and installation

Standard Materials

Body and Cover
 Body Seat
 Plug
 Plug Coating
 Ductile Iron, ASTM A536 Gr 65-45-12
 Weld Overlaid 95% Pure Nickel
 Ductile Iron, ASTM A536 Gr 65-45-12
 Buna-N Rubber, Molded and Vulcanized to the Plug

Shaft Bearings 316 Stainless SteelThrust Bearings Aluminum Bronze

• External Fasteners 316 Stainless Steel

Corrosion Protection

Standard: Internal and External PPG/Amerlok 400
 2-Part Epoxy

Ordering Data

- Figure Number B517R8
- Size
- · Connections (Class 125 Flanged)
- · Options/Accessories

Approvals & Certifications

• Fully complies with AWWA Standard C517

Options and Accessories

Option CW
 Chainwheel in lieu of

Handwheel, Facilitates Operation

of Overhead Worm Gear

Operated Valve

Option WS 2" Square Nut in lieu of

Handwheel

Non-Shock Working Water Pressure at up to 180F (82C)

- Dimensions D and E represent standard worm gear actuator
- Worm gear actuator can be rotated in 90-degree increments about valve centerline
- Valve can be supplied with 2" operating nut or chainwheel instead of handwheel
- Consult factory for valves with automatic actuators
- Dimensions in inches and weight in pounds and are approximate. Request certified drawings if critical.
